

Re: MB Docket No. 04-233

I am very disturbed about your proposal to extend LPFM and give priority to these low power FM stations as this may eliminate my ability to receive 88.1, 103.1 and 95.3 FM Christian radio in the Somerset area. I chose to listen to these stations for reasons that would be unmet by alternative local stations. Please reconsider this change which will affect MY freedom of listening choice and eliminate this choice for thousands of others who support listener funded Christian radio. Thank you.
